

JANSEN

CHEVROLET  GERMANTOWN

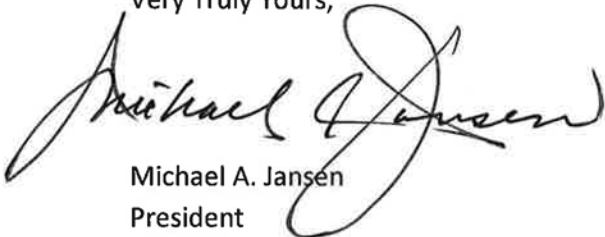

To whom it may concern:

Early morning on April 26, 2012, we experienced a severe hailstorm in our community that damaged over 160 new and used vehicles in our inventory. This was the first hailstorm that Jansen Chevrolet had ever experienced. After researching several paint-less dent repair companies, we made our decision to hire International Fleet Solutions.

Mr. Tracy Thrall, President of the company, and Mr. Dan Johnson, Operations Manager of International Fleet Solutions have proved to me that our decision to hire their company was the right choice. Since it was our first experience with an insurance hail claim, Tracy and Dan provided the necessary expertise our behalf to work with the adjusters on every damaged vehicle. I would say that if it wasn't for them, we most likely may have lost out on several thousand dollars in claims.

All of their employees have conducted themselves in a very professional manner and the repair work they performed was exceptional. We, here at Jansen Chevrolet, are very grateful to Tracy and Dan and each of their employees. I would personally recommend their services to any auto dealer.

Very Truly Yours,

Michael A. Jansen
President
Jansen Chevrolet Co., Inc.
