Ron,

I wanted to thank you for your work and professionalism in getting our inventory back to pre-damaged condition after our dealership was affected by a hailstorm. It was great to have you and your team on-site within hours of getting a storm to help us through the assessment of the damage. You and Bobby were invaluable to getting us back up and running and your team did really great work.

While we initially thought we were only going to need around 70 cars fixed, we soon realized it was more like 100 cars which made this a much bigger job. The fact this didn't faze your team and you were still able to get the repairs completed within a week was amazing.

I would recommend you and International Fleet Solutions to any dealership who is faced with damage from hail. In fact, after working with you and learning how smooth and efficient your process was, I recommended you to our entire dealership group.

If you ever need a recommendation, please feel free to send them my way. I would certainly recommend the work you and your team did.

Sincerely,

**Mike Jensen**
