

April 24, 2018

On April 3, 2018 our entire lot was severely damaged by hail. We had multiple companies to choose from but we settled on hiring Tracy Thrall and International Fleet Solutions because of his professionalism and references. It was absolutely the right choice. They began working on our inventory on April 6<sup>th</sup> and were done with over 400 vehicles by April 21<sup>st</sup>. Each vehicle was inspected by our body shop and found to be fixed perfectly.

We highly recommend hiring Tracy and his crew if you experience hail damage on your lot. They are fast, efficient and completely professional. Just give them the space to do their work and your lot will be back to normal very quickly.

Please feel free to call myself or Dave Meinert @ 859-371-7566 to get our opinion.
