To Whom It May Concern:

International Fleet Solutions, Inc., is one of the best we have ever dealt with from quality of work to scheduling and timeliness of job completion. The high quality of finished work with the substantial workload was quite impressive. They show commitment, dependability, loyalty, and performance.

The employees are hard-working, self starters who invariably understand exactly what it takes to get the job done quickly and effectively. They are highly respected, both personally and professionally, by our staff and customers.

Based on our experience, any automotive dealer would be very pleased to do business with International Fleet Solutions, Inc., and I can unreservedly recommend International Fleet Solutions, Inc.

Respectfully yours,
