To whom it may concern,

On September 25th, 2012, Jansen Chevrolet experienced the second hail storm in our entire history of doing business. If it wasn't for knowing what we had to deal with on April 26, 2012, we would have been in a major panic. However, knowing that there was a professional crew willing to help us at the drop of a hat, we were all a lot calmer. We knew we were in good hands with International Fleet Solutions. They handled the last hail storm that we had encountered and they were very hard working towards our goals. Once again, they worked with the insurance adjusters and made sure we received fair estimates. They also worked with our staff to ensure all operations were running smoothly. Most of all, they were all very friendly and understanding of our situation. If we had to use International Fleet Solutions for the third time, we definitely would not hesitate to hire them again. We know, with Dan Johnson and Tracy Thrall, we are in good hands with this company.

Sincerely,

Debbie Jansen, Owner
